---

Experienced software developer/engineer with a passion for creating elegant and efficient solutions. Skilled in multiple programming languages and frameworks. I thrive in collaborative environments and love tackling complex problems. Dedicated to delivering high-quality code and continuously learning to stay ahead in the ever-evolving tech landscape.

---

## EXPERIENCE

### L2-ENGINEER

HTC Global Services

MARCH 2024 – PRESENT

**Technologies:** Angular, ReactJS, Spring Boot, Java

- Implemented a landing page for the frontend using ReactJS, delivering on time.
- Developed efficient backend services and APIs ahead of schedule.
- Optimized backend performance by implementing multithreading and optimizing SQL queries, reducing response time **from 30-40 seconds to under 11 seconds**.
- Fixed high-priority bugs to maintain the stability of the application.
- Maintained high code quality by addressing **SonarQube** findings and adhering to industry best practices.
- **Reduced cognitive complexity** of source code for better understanding and maintainability.

### SOFTWARE ENGINEER

Full Creative Pvt. Ltd | Tamil Nadu, India

FEB 2021 - MARCH 2024

- Led the end-to-end delivery of software solutions, adeptly gathering and analyzing requirements for timely project completion, consistently exceeding client expectations.
- Focused on fostering collaboration within cross-functional teams, ensuring the development and maintenance of robust full-stack applications through effective issue resolution and rigorous testing practices.
- Provided valuable insights and actively participated in discussions, contributing to enhanced project strategies, all while mentoring junior team members and interns for ongoing technical development.
- Supported client account managers, addressing queries, and skillfully implemented Redis cache using Jedis Pool in a Spring Boot application, optimizing performance and efficiency.

### JAVA INTERN

Full Creative Pvt. Ltd | Tamil Nadu, India

OCT 2020-JAN 2021

- Delved deeply into Core Java principles and advanced proficiency in the Spring framework during a rewarding internship, translating theoretical knowledge into practical skills through hands-on project development.
  - Applied and honed my expertise in Core Java and Spring framework through meaningful projects, gaining valuable experience and a thorough understanding of real-world application development.
-

---

## EDUCATION

### BACHELOR IN TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING

B.S. Abdur Rahman Institute of Science and Technology

June 2016 – May 2020

---

## SKILLS

- Java
  - Spring Boot
  - JavaScript
  - ReactJS
  - Angular
  - Spring framework
  - Junit
  - GCP
  - Microservices
  - Flutter
- 

## CERTIFICATION

### SUPERVISED MACHINE LEARNING: REGRESSION AND CLASSIFICATION - Coursera

September 2023

### MASTER SPRING BOOT 3 & SPRING FRAMEWORK 6 WITH JAVA - Udemy

December 2023

### THE COMPLETE JAVASCRIPT COURSE 2022: FROM ZERO TO EXPERT - Udemy

February 2022

---

## PROJECTS

### HUGO E-COMMERCE WEBSITE - <https://github.com/Huzefa117/Hugo-E-Commerce>

Present

Technologies Used: Java, Spring Boot Framework, Azure SQL

### TASK MANAGEMENT –

FRONTEND: <https://github.com/Huzefa117/Task-Management-React>

BACKEND: <https://github.com/Huzefa117/ToDo-Application>

Present

Technologies Used: ReactJS, Java, Spring Boot Framework, MySQL
